

Brijendra Gurjar

SENIOR SOFTWARE DEVELOPER | BACKEND | GENAI | COMPUTER VISION

✉ gbrij07@gmail.com | 📞 +91 7878867407 | 📍 Ajmer, Rajasthan, India | 🌐 Brijendra07 | 🌐 Brijendra07

Software engineer with **4+ years of experience** building production backend and AI systems using **Python, C++, FastAPI, PostgreSQL, RAG, FAISS, and Vertex AI / Gemini**, with a strong record of shipping client-facing products and maintaining **9+/10 feedback**.

Experience

Ncircle Tech Pvt. Ltd.

Mar 2022 – Present

Senior Software Developer

Pune, Maharashtra

- Delivered production backend and AI features using **Python, C++, FastAPI, PostgreSQL**, and modern generative AI tooling.
- Built user-facing image generation and editing workflows with **Stable Diffusion, ControlNet, SAM, and ComfyUI**.
- Developed a **C++ Vectorworks plugin** to export 3D scene geometry to **USD**.
- Owned solution design, implementation, and delivery planning across backend, AI, and ML initiatives.
- Maintained **9+/10 client feedback**, earned internal awards, and was promoted to **Senior Software Developer**.

Celebal Technologies

Aug 2020 – Sep 2020

Machine Learning Intern

Jaipur, Rajasthan

- Built a car damage detection pipeline with **Detectron2** across labeling, training, evaluation, and validation.
- Achieved **80%+ validation accuracy**.

Projects

Secure Python API Integration

2026

- Built a secure Python integration layer with token auth, **OAuth client credentials**, refresh-token handling, proxy support, retries, and structured logging.
- Exposed reusable workflows through **FastAPI** with paginated fetch and JSON/CSV export, plus a React dashboard.

AI Codebase Assistant

2026

- Built a backend-first GenAI assistant for repository understanding with ingestion, embeddings, **FAISS** retrieval, and answer generation.
- Evaluated **LangChain, LlamaIndex**, and **Vertex AI / Gemini** through a **Gradio** demo UI.

Vectorworks AI Plugin and Workflow System

2024 – 2025

- Designed custom **ComfyUI** workflows and integrated them into a custom **Vectorworks WebUI plugin**.
- Implemented **SAM** on the UI, built a **Trellis 2** image-to-3D workflow, and created a **C++ USD export plugin**.

Skills

Languages & Backend Python, C++, SQL, JavaScript, FastAPI, Django, REST APIs, PostgreSQL, MySQL

GenAI & Retrieval RAG, FAISS, LangChain, LlamaIndex, Vertex AI, Gemini

Generative AI ComfyUI, Custom Workflows, Stable Diffusion, ControlNet, Prompt Engineering

ML, Vision & Tools PyTorch, TensorFlow, Scikit-learn, OpenCV, SAM, Image-to-3D, Docker, Git, Linux, AWS

Education

B.Tech in Computer Science

2016 – 2020

Rajasthan Technical University (RTU), Kota

SELECTED CERTIFICATIONS

Machine Learning Specialization | Mathematics for Machine Learning | TensorFlow 2 & Keras Bootcamp | Deep Learning with PyTorch
